T IS TO BE "short horse soon curried" with this session of the Legislature, and it is probable that some important measures will be overlooked. The matter of inducing immigration from the United States is one that should have the attention of the members without much delay. The more people that are here permanently the better will be the business of every store keeper on the islands.

A good farmer is worth something to the store keeper who sells houest goods at low prices, that's us. We are offering ribbons all widths at prices that actually make us ashamed to tell you what they are. The coats of our rivals turn green with envy when they hear of them. We have them in every conceivable shade.

Our stock of underwear has never been equalled, much less excelled in either quality or price. It is absolutely the best at what you pay for a second or third class article. It was only by chance that we secured the stock of a well known dealer in San Francisco, (overstocked was his excuse for disposing of it), and as we got them far below the market value we are enabled to give you the benefit of our good luck. They're going rapidly, these suits, and you must speak quick if you want

If you are thinking about getting a riding or bicycle suit you had better look into our ladies, cloth and serges. The quality is right and so is the price. All shades and desirable widths.

WHENCE COFFEE COMES.

ENTERTAINED BY A VETERAN PLANTER AT BAILUA.

Healthy Crop Amidst the Rocks-Benefits of Shade--War Bumors From Henolulu-Personal, etc.

Mr. G. W. McDongall's place was visited by me on Sunday, where I was very agreeably entertained by Mr. McDougall and his wife. The place is situated about four miles from Kailus, and has been the home of Mr. McDougall for 17 years He had about 125 acres on coffee, 75 acres of which is old coffee, and 50 acres new. After a good dinner G. W. Mc-Dougall, Jr., piloted me over the plantation. The land about here is covered with stone, and where the new coffee is planted it would be a difficult matter to find a square foot of soil, but the coffee seems to grow as well between the rocks as any where. Some of this coffee is now bearing, and by next year the most of it will bear. Mr. McDougall has nad about twenty years' experience in coffee growing, and is a firm believer in the benefit of shade for the coffee. This land was formerly a dense forest of kukui trees and undergrowth: In clearing it, the trees were thinned out and those left standing were trimmed of the lower branches, tous giving the coffee plants plenty of light and air, as well as shade. At the same time the trees are not wholly deprived of the sunshine. It is also a fact that where the kukui trees are left standing there is very little blight. Several coffee growers who have cut down their kukui trees are now considering the matter of replanting them for the above rea-

Mr. McDougall's experience in growing coffee has shown him that it bears best at an elevation of 1000 to 1200 feet, and that the blight is worse above 1200 feet. He is unwilling to place an estimate on this year's crop, but intimates that it will be anywhere from 10,000 to 15,000 lbs.

Mr. McDougall also conducts a cattle ranch and dairy, and a store at Kailua.

Dr. McWayne is located on the mountain side about two and a half mile from Kailua. His residence which is a very commodious building, is 1700 feet above sea level. The buildings on the place are all painted red, and are visible from the deck of the steamer long before reaching

The doctor has begun his planting in a very sensible and systematic manner. He has 177 acres of land, of which 20 acres are planted. There are on these 20 scres some 20,000 trees which well bear in two and a half to three years. He is now clearing 50 acres of land higher up, which will be planted as soon as in con-

NOTES.

Steamer day in Kona is only time to see people. The arrival and departure of the Hall at Kailua, brings the people for miles around to town. It is to Kailua what the Australia's arrival and departure is to Honolulu.

The Hall arrived here Wednesday last at 9 o'clock. Purser Matthews reported the Keauhou to arrive before evening. anchor was taken up on the Hall the Keauhou was observed coming up to the anchorage. She dropped anchor at 11:50 a. m., 161 hours from Honolulu. The telephone material for this place was immediately landed, and the steamer left for other landings along the coast to land the remainder.

Work will soon commence on the kau and Kona telephone line. Mr. Aungst, the promoter and superintendent, is expected to arrive in Kona this week.

Sheriff Nahale gave a luau at his residence in Kahaluu, July 3, in honor of the first anniversary of the Republic.

A petition is being circulated among the natives for the removal of Dr. Lindsey as Government physician for the Districts of North and South Kona. It is alleged in the petition that he does not attend properly to his June 18, 6-mo. duties and that he charges native 4-tf

Hawaiian too much for his services. About a hundred signatures have been attached to the peti-

The New Process store has been introduced in Kona.

An amusing spectacle was witnessed July 3 on the road from Holualoa to Kailua. The native preacher at Kahaluu was having an exciting horse race with a Chinese lad. The preacher came in second.

Rumors were affoat here, after arrival of the Hall the Honolulu, of another from revolution to take place in Honolulu on Monday, July 8. The revolutionist, were to be assisted this time by filibusters from the coast, who were said to be at sea near Honolulu in a schooner and would land as soon as they received the signal. Letters have been received by natives here from friends in Honolulu, saying there would be a fight this month sure.

La grippe has been prevalent in Kona for some time. Miss Lyle is now staying at Dr.

McWayne's place. Two Japanese deserters from Hana plantation, Maui, were apprehended here and taken back to Maui by the Hall.

The Hall arrived at 7 o'clock this evening. Kailua, July 8.

A good attendance is expected at the Taistle Club this evening.
